## BREAK WITH AUSTRIA NOW BELIEVED NEAR

REPLY OF DUAL MONARCHY LEAVES  
LITTLE HOPE OF AVOIDING RUPTURE

Germany's Chief Ally Declares Adhesion to Principles of Unrestricted Submarine Warfare and That She Will Regard Armed Merchantmen As Piratical Vessels Which Should be Destroyed.

PRESIDENT AND LANSING GIVING NOTE  
CAREFUL STUDY BEFORE TAKING ACTION

Washington, March 6.—(Associated Press Dispatch)—Austria's note declaring adhesion to the general principles of unrestricted submarine warfare holds out little if any hope that a break between the United States and the Vienna government may be avoided.

The complete official view of the Austrian communication will not be made known until after President Wilson and Sec'y Lansing have carefully studied the official text, which was before them today.

Also, the subject was scheduled to come up for discussion at today's meeting of the Cabinet.

It was considered probable that the course of the United States toward Austria might be tentatively agreed upon then.

Austria's effort to substitute for the individual warning, which every merchant ship is entitled by international law to receive before being torpedoed, a general warning to all vessels not to enter barred zones, cannot be accepted by this Government.

Furthermore, the United States contends now, and has always contended, that neutrals aboard enemy merchant ships are entitled to safety.

Austria's attempt in the communication to distinguish between the treatment which shall be accorded neutral and enemy merchant shipping is reviewed in various quarters as being somewhat similar to Germany's effort to establish a "safety zone" for American lines between New York and Panama.

The unofficial text, however, does not make it clear just what intentions Austria has toward neutral ships.

Another portion of the communication which undoubtedly will not meet with the approval of the United States is that having to do with defensively armed merchant ships.

Austria's assertions that her previous assurances did not apply to armed merchant vessels was received with some surprise.

The broad declaration that armed merchantmen "are to be regarded as pirate vessels, which may be destroyed" was regarded as being especially significant, in view of the intention of the United States regarding armament for its merchant shipping.

M'LEAN WILL  
CASE UNIQUE  
IN EXTREME

By Associated Press Dispatch.  
Columbus, O., March 6.—The Court of Appeals of the Second District sitting here today, was confronted with an unique problem of jurisdiction in a will case.

The will of the late John B. McLean, of Columbus and Fayette county, who died in May, 1916, leaving much farm property in Franklin, Fayette, Licking and Union counties, was probated in Franklin county and also in Fayette county.

Appeals have been taken from the Probate Courts in each case and reached the Court of Appeals today. The case is also pending in the

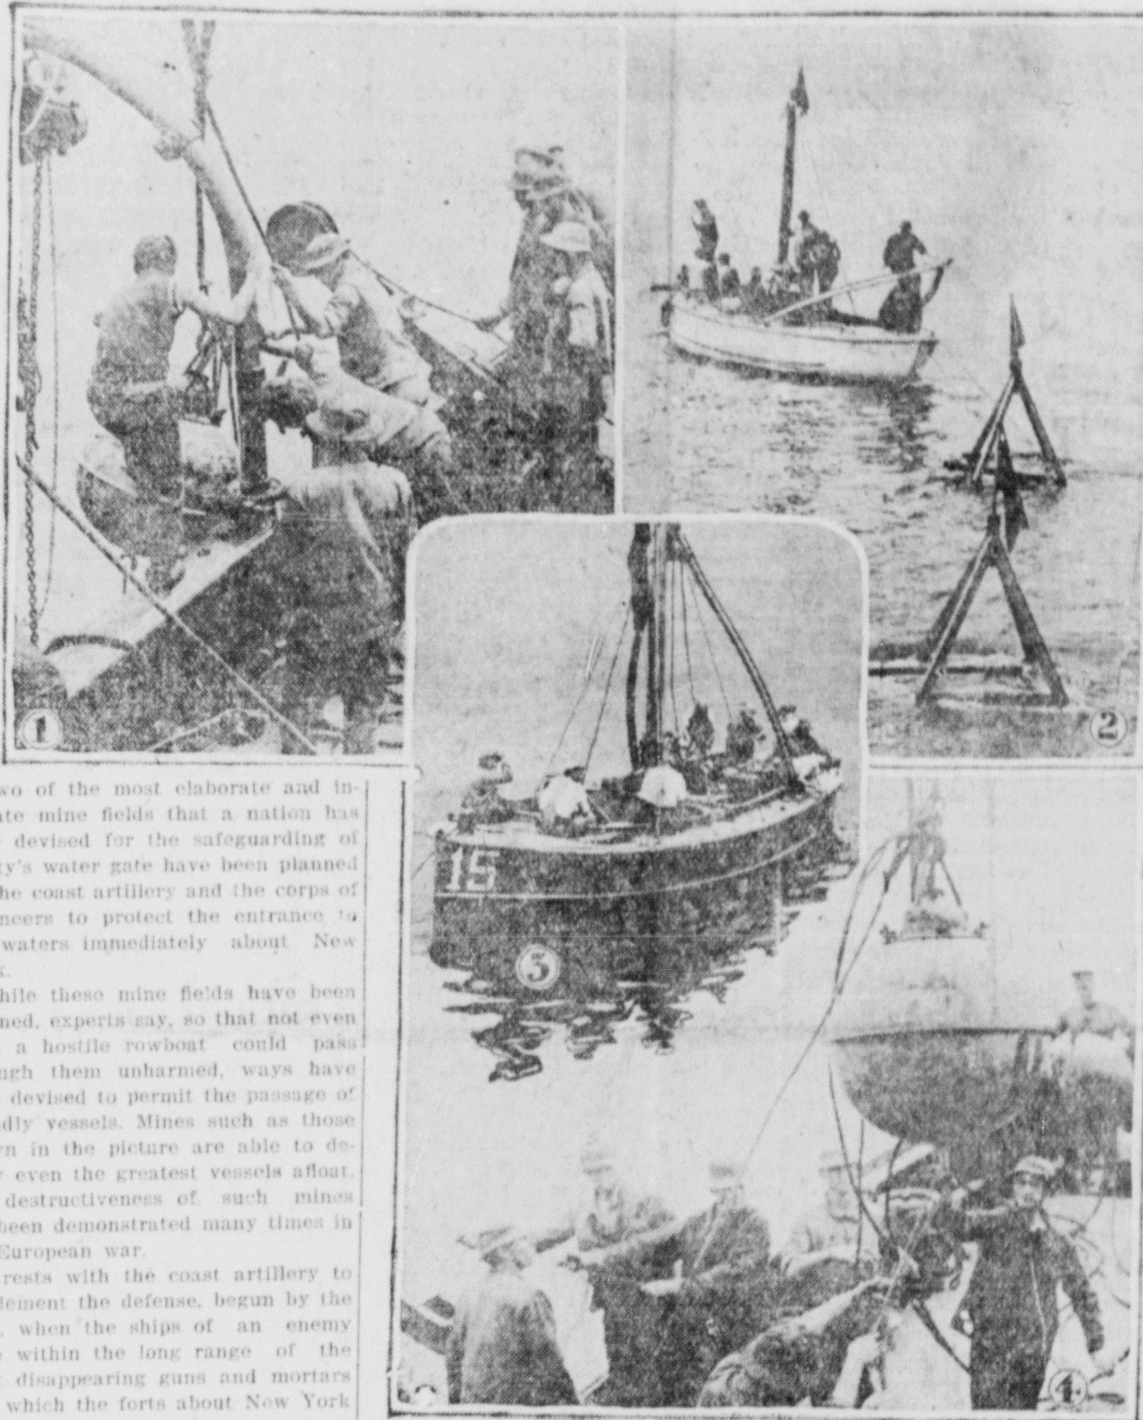

Supreme Court to determine which court has jurisdiction.  
The latter court today overruled a demurrer filed by Benjamin I. Barbee, of Franklin county, to the answer of the Fayette county heirs of Mr. McLean.

Gregg, Patton & Gregg, of this city who represent the defendants mentioned in the last paragraph of the above, regard the action of the court as highly favorable to an ultimate decision in favor of the defendants.

FUNSTON'S  
SUCCESSOR

By Associated Press Dispatch.  
Washington, March 6.—President Wilson today nominated Hunter Liggett, now a brigadier general in the army, as a major general, to take the place made vacant by the recent death of Major General Frederick Funston.

Colonel Francis J. Kernan, of the 28th Infantry, was advanced to the grade of brigadier general.

Not Even a Rowboat Could Get Through  
Mine Fields Protecting American Harbors

Two of the most elaborate and intricate mine fields that a nation has ever devised for the safeguarding of a city's water gate have been planned by the coast artillery and the corps of engineers to protect the entrance to the waters immediately about New York. While these mine fields have been planned, experts say, so that not even a hostile rowboat could pass through them unharmed, ways have been devised to permit the passage of friendly vessels. Mines such as those shown in the picture are able to destroy even the greatest vessels afloat. The destructiveness of such mines has been demonstrated many times in the European war. It rests with the coast artillery to supplement the defense, begun by the navy, when the ships of an enemy come within the long range of the great disappearing guns and mortars with which the forts about New York bristle. Also it lies with the coast artillery to see that no hostile craft may live once it has entered a mine field. No. 1, ready to lower mine; No. 2, carrier used to carry mines from patrol boats to place of laying; No. 3, mine layer, showing mine layers ready for laying; No. 4, scene abroad United States.

STATE BOARD OF HEALTH IS ABOLISHED  
LEGISLATURE WILL RECESS THURSDAY

By Associated Press Dispatch.  
Columbus, O., March 6.—By a vote of 66 to 55, the Lower House of the Legislature today passed the Wright bill, abolishing the State Board of Health and providing for the appointment of a state health commissioner and an advisory council of five members.

The measure had been passed by the Senate, and as Governor Cox advocated its passage he is expected to sign it.

Members of the advisory council will receive \$100 a year and their expenses and will select the health commissioner and fix his salary.

The advisory council will be appointed by the Governor.

The House also passed the Clark bill, designed to assist in reducing the cost of living by creating a state bureau of markets in the Department of Agriculture.

The bill is a Republican measure and was passed by a vote of 89 to 6 and now goes to the Senate.

The proposed bureau would be authorized to gather and distribute information relating to crops, prices, freight, and commission rates and other conditions helping to fix prices to the ultimate consumer.

Democratic members of the Lower House held a caucus at noon today and decided to follow their announced program of quitting active work on

Thursday and recessing until March 20, the date set for final adjournment of the General Assembly.

Governor Cox was present at the caucus and urged the legislators to bring the session to an end this week.

He also complimented them on the record they have made thus far.

The Administration tax measure, already passed by the Senate was to come before the House, this afternoon for final action.

GIVEN TO  
BRITONS

By Associated Press Dispatch.  
Washington, March 6.—British claimants of the German prize ship Appam, at Newport News, Va., today won their suit in the Supreme Court to regain possession of the vessel and cargo.

In sustaining the British libel attachment suits against the Appam and cargo, the court held that the British owners are entitled to restitution because the Appam violated American neutrality.

Treaties of 1799 and 1828 between the United States and Germany, the court held, do not entitle German prizes unaccompanied by the captor warship to indefinite American asylum.

Jurisdiction of American courts over the Appam was upheld.

NEUTRALS DECLARED RESPONSIBLE  
FOR LOSSES SUFFERED IN WAR ZONE

Note Devotes Much Space to Discussing British Blockade and in Roundabout Way Upholds Ruthless Warfare Being Waged By Germany in Sinking Vessels Without Warning.

"STRICT ADHERENCE OF PRINCIPLES  
ALREADY GIVEN IN THE ANCONA CASE

London, March 6.—(Associated Press Cable).—The American Ambassador at Vienna has been handed the reply of the Austrian Government to the American note inquiring as to the position of the Austrian Government in regard to the unrestricted submarine warfare, according to a Vienna dispatch to Reuters by way of Amsterdam.

The reply declares that neutrals are responsible for losses they suffer by entering territory where warlike operations are taking place.

The reply says: "that whatever attitude the Washington Cabinet may take as to individual customs raised here," the Austro-Hungarian Government is "essentially in accord with the American government in regard to the protection of neutrals against endangering their lives."

The memorandum then maintains that "neutral subjects have to bear themselves all losses they suffer by entering territory where warlike operations are taking place."

After a lengthy discussion of the British blockade, which, it declares, is illegal, the memorandum continues:

"The principle that neutrals should enjoy in war times the advantages of the freedom of the seas refers only to neutral vessels and not to neutral persons aboard enemy vessels."

The reply further contends that belligerents are entitled to decide for themselves what measures should be taken against an enemy in sea traffic and concludes:

"In such cases neutrals have no other legitimate interest, and therefore no other legal claim that a belligerent inform them in time of a prohibition directed to an enemy so that they can avoid intrusting their lives and their goods to enemy vessels."

The Austrian memorandum, referring to the note on the Ancona case, says that it "strictly adheres to the assurance already given."

At the same time, Austria calls attention to the fact that at the time of the Ancona incident it stated that it "reserved the right to bring up later for discussion difficult international questions which arise in connection with submarine warfare."

The memorandum then adds:

"If the Austro-Hungarian Government now refers to this reservation and briefly discusses the question of the sinking of enemy vessels to which the note refers, it is guided by a desire to show the American Government that now, as heretofore, it strictly adheres to the assurance already given and endeavors by clearing up that important question, because it touches the law of humanity, to avoid misunderstanding between the Monarchy and the American Union."

WERTER HORN  
DYNAMITER  
LOSES SUIT

By Associated Press Dispatch.  
Washington, March 6.—Werner Horn, the German reservist lieutenant, who dynamited the international bridge near Vanceboro, Maine, in 1915, today lost his habeas corpus suit in the Supreme Court, in which he sought to avoid being tried at Boston for alleged transportation of explosives on passenger trains. The court did not decide Horn's contention that in a belligerent act

against Canada his German Army commission exempted him from American prosecution and made him punishable only by the State Department. The court said Horn's appeal was not authorized, and dismissed it.

HOLD WORKMEN'S  
COMPENSATION  
LAWS ARE VALID

By Associated Press Dispatch.  
Washington, March 6.—The first compulsory workmen's compensation or industrial insurance law—that of Washington State—to come before the supreme court was today upheld as constitutional. The Iowa workmen's compensation law, voluntary upon employers, was also upheld as constitutional by the Supreme Court.

# COUNCIL TAKES STEPS TO PROVIDE STREET CLEANING

Will Meet Friday Night to Take Up Plan of City Buying Flusher—Charter Government Ordinance Read Third Time—More Bond Issue Is Authorized.

One of the chief acts of the city council at the regular session Monday night was appointing a committee to confer with Solicitor Gregg and present ordinances at a special meeting Friday night of this week with a view toward purchasing a flusher and making special assessments for cleaning the paved streets of the city.

All of the councilmen were in their places, and the number of visitors could be counted on the fingers of one hand.

Herbert Chapman made request for repairs of a drain at the intersection of Market and Delaware streets, and the Safety-Service Director was instructed to make the repairs.

Howell inquired if material could be found to repair streets which were cut through in some places. The Safety-Service Director informed him that cinders might be used.

The report of the city treasurer—the first made in a great many years—was submitted.

Auditor McFadden's monthly statement was read, showing balances on March 1st of: General Fund, \$2058.71; Safety, \$1992.40; Health, \$239.43; Service, \$7096.15.

The old ordinance on calling an election to vote on the question of adopting the charter from government—an ordinance which has been juggled for the past many months—was placed upon its third reading upon motion of Howell.

Sheets objected to voting in favor of the reading until the ordinance is amended providing that the election be held on the next regular election day. He was advised by Rowe that the ordinance could be placed on its third reading at once and the amendment be inserted before passage. All voted in favor of the third reading, and it was read.

The smoke ordinance, to regulate the density of smoke, was passed. Mayor Oster's report for February showed the collection of \$27.95 in fines and licenses.

A resolution to transfer \$600 from the Paint street special assessment fund to the Paint street city's portion, was adopted.

An ordinance to make additions to the appropriation of the general fund to pay bills of the Xenia workhouse for the first six months of this year, was passed.

A blanket ordinance to issue bonds in the sum of \$3,000 was presented and after some discussion was passed. \$1800 of the amount was for constructing ditches and sewers; \$950 for resurfacing and repairing streets and \$250 to pay for emergency expenses resulting "from an epidemic."

The solicitor explained that the \$1,800 was for paying the city's portion of the East End sewer and do other sewer work; that the \$950 was for paying interest to Heffner & Son and the Andrews Asphalt Paving Company for interest on money due, and made necessary by failure of assessing ordinances being prepared and passed when they should have been; that the \$250 was to pay outstanding bills of the board of health. This seemed satisfactory to all.

An ordinance to levy special assessments for the improvement of Eastern avenue, was read and passed.

Upon request of Evans the Service Committee was requested to investigate the sidewalks on the east side of South Main street, near Oak.

Veal then asked Solicitor Gregg what could be done toward bringing relief in cleaning paved streets.

Solicitor Gregg replied that at the present time the old case was in the court of appeals and would not be decided there before May or June. He intimated that other steps could be taken by council to bring relief.

Howell suggested issuing bonds and purchasing a flusher, levying special assessments and do the work at as nominal a charge as possible. The Solicitor regarded this as feasible and as effective as the old plan of letting the contractor. The only risk involved he declared was in case the court reversed the lower court.

Upon motion of Evans that a committee be appointed to prepare ordinances for adopting this plan, all voted yes, and the committee with Solicitor Gregg, will have the ordinances ready to submit Friday night of this week.

Howell spoke of the necessity of remedial legislation, and submitted a resolution similar to one adopted in Toledo, urging certain changes in the present method of taxation, and after some little discussion this was adopted.

The North Main street improvement was taken up. The Solicitor announced that inasmuch as no firm would bring an asphalt plant to the city to construct one square of paving, that it might be necessary to use some other material; that the money for the improvement had been available since last fall.

Adjournment was then taken until Friday night, at which time the cemetery trustees will meet with council.

## CONCERT COMPANY DRAWS BIG CROWD

The Chatham Concert Company made its first appearance in this city Monday evening at the high school auditorium under the auspices of the Willing Workers of the McNair Presbyterian church.

A very large audience responded to the efforts of these decidedly original entertainers with frequent applause that testified full appreciation.

The company is composed of Myrta Chatham, reader; Adelaide Rynd-

ers, violinist; E. Rozina Ausfeller, soprano; Anthony Metzger, pianist and each appeared at the best in a program delightfully varied.

Miss Chatham proved her great versatility in readings, both grave and gay, in original offerings and as the composer of the little operetta, "The Perfect Song," which in a burst of song and ensemble work of the company brought the program to an effective close.

The violinist especially pleased the audience in beautiful concert numbers and the singer's repertoire was quite diversified.

Mr. Metzger in his accompaniments and solos proved his ability and contributed a large share to the program.

## JOINT SESSION TO TAKE UP CEMETERY ADDITION PROPOSAL

A joint session of council and the Union township trustees has been called for Friday night of this week for the purpose of taking definite action on the proposal to purchase more than 10 acres of additional ground for cemetery purposes, and indications are that the purchase will be authorized.

The ground in question is that owned by J. N. Riley, and located immediately west of the present cemetery grounds. In all there are nearly 11 acres of the land, and it has been priced at \$300 per acre.

The joint session will begin about seven o'clock Friday night, and the special session of council to take up the flushing question will follow.

Considerable interest has been aroused in the proposal to purchase the addition to the cemetery, many previous attempts having failed.

## FUNERAL SERVICES CHAS. A. CROOKS

The funeral services of Mr. Charles A. Crooks held at the First Presbyterian church Monday morning were very largely attended and in every way a high tribute to the sterling man who will be greatly missed in this community.

There was a general representation of business men and the Brotherhood class of the Presbyterian Sunday school, of which Mr. Crooks had been a highly valued member, attended in a body.

Rev. Wm. Boynton Gage conducted impressive services and followed the reading of the memoir with a splendid talk, thoroughly appreciative of the many character and high principles of the deceased.

The hymns were affectively sung by Miss Woodward, Mrs. Albert Barney, Messrs. Kibler and Hicks, Mrs. Davis at the organ.

The floral remembrances were superb and in great number.

Immediately after the service the family and relatives entered cars for the drive to the Limes cemetery, between Greenfield and New Martinsburg, where interment was made in the family lot.

The pallbearers were: Messrs. A. J. Walker, Chas. M. Johnson, C. A. Reid, Jerome Dick, O. K. Probasco and Frank McCormick.

Relatives who were here to attend the services were: Mr. Homer Gardner of Columbus, Ind., a brother of Mrs. Crooks; Mrs. Elijah O'Day, an aunt; Misses Ella Ivins and Alta Olney, cousins, of London, and Miss Allie Limes, of Greenfield, a cousin of Mr. Crooks.

## PROF. MYERS IS TO GIVE AN ADDRESS

Prof. Wm. E. Myers, of the Bromley Evangelistic Party, will be in this city next Monday night to address the Fathers' and Sons' annual gathering at the Y. M. C. A.

The Fathers' and Sons' banquet and annual get-together will be held in the auditorium of the Y. M. C. A. and a large number will attend.

It is the third annual banquet of its kind, and promises to surpass all previous banquets and meetings.

## RECORDER JOHNSON KEPT VERY BUSY

County Recorder Johnson has been having his hands full during the past week or ten days, in receiving and recording deeds, mortgages and releasing other mortgages.

In ten days time upward of 50 realty transfers were placed in his hands for recording, and an almost record breaking number of real estate mortgages filed as well as released.

### BROWNING CLUB

## REV. J. V. STONE GIVES ADVICE TO BEGINNERS

First of Series of Sermons by Former Pastors Is Delivered to Large Audience—Services Tonight.

Rev. J. Vernon Stone, former pastor of Grace M. E. church, now of Trinity church, Chillicothe, delivered a forceful sermon to a large audience at Grace church, Monday night, speaking on "Practical Things for Beginning Christians."

The meeting was the first of a series which will be held the remainder of this week with exception of Saturday night, conducted by former pastors of Grace M. E. church, and each service is expected to draw large numbers.

Some three dozen voices, composed chiefly of Eighth grade boys and girls composed the choir for the Monday night services, and the singing was spirited and consisted chiefly of patriotic songs.

Announcement was made that tonight another former pastor will preach, and his identity was not disclosed.

Rev. Stone, in the course of his splendid discourse, said:

You have recently given yourselves to Christ, what does that mean to you? Along with self goes time, example, influence, service, money. If anything else is dear to you, give that to Christ. Only as we empty our selves does Christ come into us to surprise us and satisfy us.

Your business now is to build a life and character. These do not come at once as you explore new fields. You come to adjust yourself to the newer Christian conditions. Your confidence is your Christ and yourself grows apace and all that makes for life and personality is enlarged.

You are now to cultivate acquaintances with Jesus. You have just been introduced. Jesus must be made real to you. You must come to know him with all intimacy. He will then the more help you in times of troubles. These are sure to come. Your greatest temptations are the very least ones. Great ones will not catch you. Small ones may, and will if you are caught at all. The Devil is wise enough to tempt you with the smallest. But a number of small sins are as deadly as a great one.

You must take an active part in your church life. Hunt up the place where you can work—teach, sing, testify, pray. Prepare for some definite services. Honor your Christ and your pastor. Tell him you appreciate his service and help him bear his burdens.

## 200 CONVERTS AT SUNDAY MEETINGS

Two hundred converts were added to the several hundred obtained by the Bromley party in Dayton, during the various sessions Sunday, and large results are expected during the remainder of the meetings.

Indications are that between 3000 and 4000 converts will be obtained before the meetings come to a close.

## RECEPTION FOR NEW MEMBERS

There will be a reception for new members at the Christian Church tonight at 7:30 o'clock.

Every member of the church, all new converts and all friends of the church are cordially invited.

# STUTSON'S Annual Spring Sale

OF UNDERWEAR Commences Thursday, March 8 and Continues Until March 15

## Success Insured

This being the third event of this kind we are sure of its success. It's two predecessors were phenomenal. On September 13th, 1916, we began preparations for this Spring Sale and have been preparing ever since. We are all quite familiar with the ever increasing cost of cotton goods now and as we realized long ago that the price would greatly advance, we fully protected ourselves.

## Quality Hard to Secure

It is very hard to get what you buy that is right in quality of the material, and garment after garment has been returned as not up to the standard until now we have the right quality to offer you.

## About the Prices

These garments were all bought before the big advance came and we could sell at much higher prices and still be giving wonderful values, but we will sell what we have in this sale at exceptionally low prices.

## Complete Assortments

You will find both cotton and silk garments of every description and if you will examine them carefully you will find one of the best and most complete assortments of underwear ever offered for sale.

We will list the Garments and Prices in Tomorrow's Issue of This Paper

## Senatorial Horseplay

While Belshazzar and his court reveled and banqueted, underlings betrayed him—his palace was sacked, his guests massacred and himself taken by his enemies.  
 While Persia sunned herself in her own magnificence—while Greece forgot all in the pride of her genius—while Rome gloried and feasted—all were to awaken suddenly to find themselves betrayed and at the mercy of their conquerors.  
 Now, while prosperous America, foremost of progressive nations, warned by the enthusiastic proffers of support that have flooded in from all sides since the German situation became perilous, complacently takes stock of her resources and awaits eventualities confident of her power, an ulcer takes root in her legislative halls, her very heart, and she is suddenly brought to turn an anxious eye on this unexpected menace to her integrity.

Sunday, while twelve American statesmen "played horse" in the halls of the nation's Senate, the voice of the Senate majority was overwhelmed until the time when its utterance might have been effective had passed.

Twelve senators, Republican and Democratic, conducted a filibuster which succeeded in blocking the bill to give President Wilson power to arm American merchant ships to protect themselves against the submarine menace.

The House had passed this measure 403 to 13. The Senate would have given it almost as substantial a majority had not these twelve men, availing themselves of a legal technicality, thwarted the will of the majority.

Senator LaFollette, of Wisconsin, only lately considered as presidential timber, led this "horseplay"—characterized by the President's spokesman, Senator Hitchcock, as "one of the most reprehensible filibusters ever recorded in the history of any civilized country"—LaFollette, erstwhile known as Wisconsin's "idol," but who has brought upon himself severe criticism and no little abuse by the press and political organizations of his state by his stand in the submarine crisis, of which this filibuster marks the climax.

As a result of the filibuster the United States, facing one of the gravest crises of its existence, and its leader, struggling under burdens such as only Washington and Lincoln have known, have been robbed of the means of protection, they sought and which their people were eager to give them.

Senator Hitchcock, leading the forces opposed to the filibuster, perceiving that the LaFollette stratagem was to be successful, countered with another filibuster, which prevented LaFollette from taking the speaker's platform in the closing hour of the session to deliver a speech that he had worked on for hours and which probably contained an explanation of his course.

But whatever his grounds, it would appear impossible that they could justify the silencing of a nine-tenths Senate majority.

If LaFollette and his constituents are convinced of the righteousness of their course, why did they find it advisable to conceal their reason and to seize on dictatorial opportunity to force their end?

The blocking of this measure greatly embarrasses the movements of the President, who regrets that "a little group of willful men, representing no opinion but their own" should be able to render "the great government of the United States helpless and contemptible."

## Jolt to Time-worn Dogma

If the reports of the Chicago city health department are backed up by those of other cities, and there seems to be little doubt that, that time-worn dogma that rigorous winters are healthy, must be having considerable of a jolt.

The Chicago report tabulates just one ailment after another, piling up diseases from mumps and measles to the more dangerous ones and giving an appalling death rate.

In the face of these statistics it would take a most pugnacious optimist to hold out for cold winters as aids to health.

Isn't there equal proof in our own town? Physicians admit that not for a number of years has there been so much sickness and so serious in its nature.

And why should a long, severe winter be healthful? The cold, to which people in this section are not accustomed, shuts in and interferes with the out-door exercise of milder seasons. There are few who are brave enough to take in as much fresh air with the thermometer below zero as when the mercury is sliding upwards.

Human beings are a good deal like sheep, after all, and sheep huddle together in cold weather. The natural sequence is that, especially in contagious disorders, the closer contact increases illness.

Say all you please about that zero temperature freezing out germs, it's done a pretty poor job of it this winter and most of us are mighty glad to believe the old saying that if March comes in like a lion she'll go out like a lamb" and to welcome every harbinger of spring.

## Poetry For Today

### THE STARS UPON THE FLAG

They blossomed forth like flowers  
 Of old, to meet the sun;  
 To spread the light of liberty  
 Their mission was begun.  
 They cheered the brave, they freed  
 the slave;  
 Their mission is not done.

The wave of every ocean  
 Hath dewed them with its spray;  
 Everywhere the stars above  
 Have kissed them with their ray;  
 And shall they flee the billows  
 At a foe's command today?

Most gallantly our grandsires  
 Bore them in the long ago,  
 Blithely gleaming from a banner  
 With their beauty still above;  
 Shall they hide within the harbor  
 At the cry of cravens? No!

Fling forth flag from every ship  
 We have that now can sail;  
 Let every laughing star shine out  
 Again to greet the gale;  
 Whatever peril they may meet,  
 Our sailors will not fail.

Beat back the shame that threatens;  
 Send our stars across the foam,  
 Wherever any ship can go,  
 In freedom let them roam;  
 There's not a loyal heart today  
 Would have them bide at home.

## BUYS PROPERTY ON EAST PAINT

Mr. Ernest Devaney has purchased the E. W. Nelson property on East Paint street, across the alley from the residence of Capt. Geo. Jenkins, and will occupy the property in the near future.

## PRESENT STATUE

Washington, March 6.—The name and memory of Robert Emmet was signally honored here today when a statue of the Irish martyr was presented to the United States government by the Emmet statue committee, headed by Senator James A. O'Gorman, honorary chairman, and Justice Victor J. Dowling of New York, active chairman. Prominent Irishmen from all over the country took part in the ceremonies.

The statue is the work of Jerome Connor, and represents Emmet in the dress of his time, standing with shoulders back and face upturned, as if pleading for the cause for which he died. The face was modeled from the original death mask made by Dr. Petrie by the light of a lantern in a Dublin graveyard a few hours after Emmet had been hanged and beheaded. It will have a permanent place in the National museum.

## GERMAN PRESS WITH ZIMMERMAN

Berlin, March 6.—Mexico will begin hostilities against the United States at once if war breaks out between the United States and Germany, a portion of the German press believes. General Carranza will act upon his initiative and without any urging from Berlin, it is declared. And one paper adds "Cuba and the Philippines may decide to make common cause with Mexico, on the ground that the United States has inflicted serious wrongs on them."

Almost without exception the Berlin papers agree that Foreign Secretary Zimmermann's statement was a complete justification of Germany's course in attempting to arrange a defensive alliance with Mexico and Japan. Count Von Reventlow, often accused of being violently "anti-American," criticizes Secretary Zimmermann severely in his discussion of the proposal to Mexico. Publication of Germany's offer, Reventlow asserted, has united sentiment behind President Wilson.

## PLOTTERS ARRESTED

By Associated Press Dispatch.

New York, March 6.—Dr. C. Hanador Chakiaberty, a Hindoo physician, and Doctor Ernest Schunker, aged 34, described as a German, were arrested today on charges of conspiring to set up a military expedition against a foreign country, on friendly relations with the United States.

The police say the men confessed that they had plotted, under direction of Wolf von Igel, to invade India by way of China.

## INDICTMENTS FOR H. C. OF L.

By Associated Press Dispatch.

New York, March 6.—The Federal Grand Jury that has been investigating the high cost of food and fuel returned two indictments today, naming as defendants in the first, 198 corporations, and fifty-five individuals in the second, ten corporations, and sixteen individuals in the business of producing or selling coal.

## TARIFF CLAUSE IS ANNULLED

By Associated Press Dispatch.

Washington, March 6.—The clause in the tariff law granting a five per cent discount in duties to imports brought in American ships, or ships of nations with which the United States has favored nation treaties, was annulled today as unconstitutional by the Supreme Court.

## BILL IS AGAIN INTRODUCED IN SENATE

By Associated Press Dispatch.

Washington, March 6.—Senator Lodge, of Massachusetts, reintroduced in the Senate today the armed neutrality bill which failed of passage Sunday.

When he asked its reference to the Foreign Relation Committee, Senator Thomas, of Colorado made the point of order that Congress was not in session, which Vice President Marshall sustained.

## RENOMINATION SENT TO SENATE

By Associated Press Dispatch.

Washington, March 6.—Renomination of Dr. Cary T. Grayson as medical director in the Navy with rank of rear admiral, who failed of confirmation in the Senate during the last session after a prolonged fight, was sent to the Senate today by President Wilson.

## TUBERCULOSIS IN GERMAN CAMPS

(Associated Press Cable.)

Berlin, March 6.—Exact figures regarding the number and percentage of tuberculous prisoners of war in the scores of German camps have been collected as a result of the charges, widely circulated abroad, that prisoners are intentionally infested with this disease. The figures show that the French suffer most of all from tuberculosis, but that the disease on the whole is on the wane.

In the first year of the war there were discovered in German camps 3,542 tuberculous Frenchmen, or two per cent of the number of prisoners; in the second year there were 2,994, or 0.75 per cent. In those two years there were transferred to Switzerland 1,592 Belgians, 1,262 Englishmen, 11,316 Frenchmen. Suffering from tuberculosis among this number there were 129 Belgians, 94 Englishmen and 500 Frenchmen. There died later of the disease in Switzerland two Belgians, 41 Frenchmen, and no Englishmen.

Conditions in the camps were sufficiently excellent so that the increase tuberculosis from the beginning of the war until the end of July, 1916, remained behind that of the civil population of Europe.

## I. W. W. FACING MURDER CHARGE

(By American Press.)

Seattle, Wash., March 6.—Murder trials of seventy-three members of the Industrial Workers of the World, growing out of a bloody martial invasion of the city of Everett, Wash., Nov. 5, 1916, opened in the superior court here. Each of the seventy-three men is to be tried individually.

Leaders of the radical labor movement on the Pacific coast regard the trials here as the opening battle of life or death for the I. W. W. on this coast.

Some 250 members of the organization chartered a special steamer on Sunday, Nov. 5, speeding to Everett, where a free-speech fight was in progress.

As they drew up at the city dock there they were met by a special band of 300 deputized citizens. Sheriff Don McRae, leading his deputies, ordered the men back as their boat touched the wharf. Their answer was a volley of shots, wounding the sheriff and half a dozen deputies. Deputy Jefferson Beard and Lieutenant Charles Curtiss of the national guard were killed, as were five members of the I. W. W. in the ensuing battle.

## BRITISH TAKE MORE TRENCHES

(By American Press.)

London, March 6.—Around Arras and near Ghinchy the British troops have carried out successful raids against German positions. In the vicinity of Arras the British struck at two places and inflicted many casualties on the Germans, took forty-two prisoners and captured a machine gun. Prisoners also were taken near Ghinchy.

The French counter attacked north of Bois Caillies, where the Germans had made a gain at one point in an attack delivered over a front of one and three-fourths miles, and regained a part of the captured elements.

Scouting parties continue active in Roumania and at various points artillery duels are in progress. There has been no change in the Austro-Italian and Macedonian theaters. The repulse of a small Turkish attack near Kalkit, in Turkish Armenia, is reported by Petrograd.

There has been considerable aerial activity along the line in France. Six hostile machines were brought down, two within the British lines, and eight others were forced to descend, damaged. It is admitted, however, that the Germans forced down two British machines and that five others failed to return to their base.

Physician a suicide.

Van Wert, O., March 6.—Dr. Robert Ream, forty-five, committed suicide by shooting himself in the mouth at the home of his brother, Ed Ream in this city. He had been in poor health for some time.

### GREEKS AROUSED OVER PLANS TO LEASE THEIR BOATS

(Associated Press Cable.)

The Piraeus, Greece, March 6.—If the British proposal to lease the Greek Merchant fleet with the alternative of refusing to insure Greek boats or furnish them with coal, is put through the secretary of the Greek shipowners' union states the Greek shipowners will all be ruined, as the price offered per ton for the lease is far below what can be obtained in the open market today.

The Hellenic government has taken a hand in the negotiations between the British government and the shipowners on the basis of insuring the country a sufficient number of bottoms to provide for the feeding of the population. The foodstuffs commission claims that, when the blockade is lifted, the country will be absolutely without everything in the nature of breadstuffs, potatoes, coal, benzine and coal oil, to say nothing of less vital necessities.

According to statistics compiled by the government, a minimum of 58,000 tons of wheat, 25,000 tons of coal and 40,000 tons of other articles of prime necessity—sugar, rice, potatoes, benzine and so forth—are required per month for the use of Greece. None of these essential articles have been allowed to enter the country now for three months, and the country is almost on starvation rations in consequence.

# FOREPAWS' AND HINDPAWS' BIG CIRCUS RETURNS

April 9 and 10 Days Set for Second Showing of Mammoth Spectacle at the Y. M. C. A. Hippodrome.

Manager Walter Patton of the Y. M. C. A. Hippodrome is in receipt of the following telegram, which speaks for itself:

"Denver, Colo., March 6. "Manager Patton. "Y. M. C. A. Hippodrome: "Arrive Washington April 9 for performance Hippodrome 9 and 10. Show bigger and better than ever. Managerie doubled. Many new performers and sideshow attractions.

"FOREPAW." The spacious Y. M. C. A. circus ground is being put into shape for the big attraction. Because of the success of the circus last year and because of the numerous acquisitions of the show since it showed here before, two dates have been arranged in order to give everyone a chance to see the circus and that the program of the two nights may be varied somewhat.

It is said the big menagerie has been greatly augmented with creatures both rare and horrible to see, and that among other things the sideshow will contain a genuine Abyssinian wild woman and a real Georgia plantation jubal chorus.

The Hippodrome circus committee held a meeting with Chairman G. H. Hitchcock Monday night to discuss the telegram and plan to receive the big show. Another meeting will probably be held later in the week to perfect arrangements.

## PARENTS-TEACHERS CLUB WILL MEET

The Parents-Teachers Club of the Cherry Hill School will hold the meeting for this month on Wednesday evening, March 7, at 7:30 p. m. at the School Building.

A program of unusual interest to the patrons has been arranged, consisting of talks on the school work by several of the teachers and an address upon "The Wider Use of the School Plant" by Superintendent McClain.

The Committee has arranged a year's work of unusual importance and believe all will get the most benefit from it by being present at the first meeting in 1917.

W. R. C. REGULAR SESSION The meeting of the Women's Relief Corps No. 12 at Memorial Hall, Thursday, March 8, 1917 at 2 p. m. A full attendance is desired. By order.

SECRETARY.

## In Social Circles

The Daughters of the American Revolution held a delightful meeting—one of the four evening sessions of the year—at the Federated club rooms Monday night. An interesting program was presented and there was an unusually full representation of the Daughters.

A feature of special interest in the business session was in connection with the purchase of Monticello, Jefferson's home.

The board is asking Congressman Fess to sign the bill for this purchase and also for the purchase of an historic place near Marietta.

Some little time was taken up by discussion of the D. A. R. magazine and attention was called to the Continental Congress to be held in Washington, D. C., the week of April the fifteenth and will be attended by delegates from the local chapter.

Mrs. Elizabeth Carpenter charmed the Daughters with her reading of Mrs. Browning's "The Mother," and as an encore an entertaining contrast in "Pa," one of Riley's sketches.

Mrs. Fred Vordenfield and Mrs. Eugene Boyd, two accomplished musicians who are decided acquisitions to Washington's musical circles, gave a brilliant piano duet, "March of Norwegian Hunters," and in response to a persistent encore "The Valse Vendienne."

## PERSONALS

## The Silks for Spring and Summer

In the bright lexicon of silk fashions for 1917 there is no such name as "dullness."

There is snap and originality, almost a daring, in the designs of silks which make them unusually attractive. The fashions that have become familiar under the name of SPORTS WEAR STYLES have a wider field than ever; and the patterns have been designed to meet this extraordinary call.

Tussahs and Crepe de Chine, Chiffon Crepes and Crepe Meteors are highly favored by exclusive modistes. Sport Styles in stripes, sometimes in highly colored oval and medallion figures, of Oriental design, all striking, all startling, all new from the looms.

The Silk section has on its gala dress to introduce the Silk Fashions for Spring and Summer 1917, and will welcome you at any time.

## GALLIGER TO TRAIN STRING OF HORSES

Charley Galliger, the well known Wilmington horseman, has located at the Leesburg track to do his training work this year and will have a first class stable of horses to prepare for the races. Galliger has been spending the winter months on the road for the Horse Journal, a trotting horse publication issued weekly at Washington, C. H., and has been very successful in the work, as he has a wide acquaintance and friendship among the horsemen.

Of course the star of his stable this year will be the trotter, John Wreath 2:15 1-4, owned by Channing Curl and with which he made a clean-up of the half-mile tracks last year, beating many fields of high class horses. Among others he will train and race are Crescous Wreath 2:16 1-4, owned by Patrolman Noah Bell of Washington, C. H.; Prince Dumas Jr. 2:13 1-4, and Robert Wreath 2:16 1-4, the latter two owned by H. D. Pavey, of Sabina, and his brother, Clint, of Leesburg.

Clinton County lovers of the trotters and pacers are wishing Galliger all kinds of good fortune this year, and they hope to see his colors brought home a winner many times during the season.—Wilmington News

## TO QUICKEN RETURNS OF ELECTIONS

### Gilmore Bill Said to Be Backed by Governor—Legislative Notes.

By Associated Press Dispatch.

Columbus, O., March 6.—While differing from the Kansas double election board plan a bill has been introduced in the Ohio General assembly by Senator Gilmore of Preble County which is designed to accomplish the same thing as the Kansas plan, quicken returns on election day.

It provides for opening the ballot boxes at stated intervals on election day for the purpose of canvassing the vote and thus avoid delay by deferring the count until the polls close. It will enable election boards to eliminate many precincts, it is said.

There are many other new features to the Gilmore bill. It provides for one universal registration this year and no further general registration. A card system would be used to list all voters.

Failure to vote for three years would result in the cancellation of the elector's registration card and in order to again vote he or she would have to make application for registration as a new voter.

The bill seeks to place deputy state supervisors of elections and chief clerks on a straight salary basis instead of allowing them compensation according to the number of precincts.

In counties having a population of 300,000 or more the supervisors would receive \$3500 and the clerk, \$4500 a year; in counties having a population of 150,000, supervisors, \$2700; chief clerk, \$3200; in counties having a population of 50,000 supervisors, \$1200, chief clerk, \$1800; in counties having a population of 20,000, supervisors, \$1000, clerk \$1500; in counties of less than 20,000, supervisors, \$600, clerk \$1000.

Governor Cox is said to be favorable to the measure introduced by Senator Gilmore but owing to the press of other matters it may not be passed at this session. The governor is said to favor a general survey of the election laws between the close of the present session of the general assembly and the next session.

The appropriation bill carrying out the recommendations of Governor Cox is his biennial budget was said to be ready today for introduction in the House by the finance committee. Passage of this bill will probably be the last act of the assembly before it recesses Thursday.

The emergency tax measure was before the lower house today for action. It passed the Senate with only one dissenting vote and is also expected to pass the house. County auditors in every county in the state are waiting for the passage of this act so they may proceed with the annual assessment of personal property which is to begin early in April.

An attempt will be made to pass the Hunter bill to appropriate \$150,000 for a new woman's building at Ohio State University before the recess Thursday. Governor Cox will sign the bill if it is passed, supporters of the measure said today, although he did not include it in his budget recommendations.

The Reynolds bill to authorize the creation of a reservoir at the junction of Summit, Geauga and Portage counties having been reported favorably for passage is on the House calendar for passage today.

### Tale of Hoy Women's Sufferings When Laconia Sank Shocks America

MRS. MARY E. HOY

Few things in the development of the ruthless submarine warfare aroused so much pity and indignation as the account of the terrible sufferings, ended by death, of Mrs. and Miss Hoy, Americans, when the Laconia was sunk by a German submarine. They endured tortures in an open boat from the weather and icy waters before death came, and the survivors in the boat were compelled to throw

their bodies overboard. Mrs. Mary E. Hoy and Miss Elizabeth Hoy are seen in the pictures.

## WAR IS SEEN BY WILSON

### United Nation Imperative, He Says in Inaugural Address.

Washington, March 6.—President Wilson sounded a new doctrine of internationalism and world peace in his inaugural address, but in the same breath warned that the United States may "require a more immediate association" with the war than mere armed neutrality. He spoke of unity of American thought, spirit and action, and voiced the view that this must be an Americanism steeped in world-spirit instead of the isolated national view of the past.

The president's principal plea for world peace called for: First, limitation of world armaments; second, equal interest and responsibility of all nations for maintaining peace; third, equality of nations in all matters of right or privilege; fourth, destruction of the "armed balance of power;" fifth, that all the world should support no other power than the view that "governments derive all their just powers from the consent of the governed;" sixth, freedom of the seas equal to all; seventh, crushing of any attempts within a nation to organize or assist a revolution against another nation.

Points in the speech follow: "The war inevitably sets its mark from the first alike upon our minds, our industries, our commerce, our politics and our social action. "We have been deeply wronged

## SENATORS OPPOSED TO ANY CHANGE

(By American Press)

Washington, March 6.—There will be a caucus of senate Democrats this afternoon on a program for the special session, which was called mainly to pass upon appointments. Senator Owen, who has been the chief proponent of a limited debate rule for many years, is prepared to bring the subject of cloture before the caucus and thirty-three senators, most of them Democrats, have signed an agreement to support the rule he proposes.

If the caucus decides to stand behind this proposal and make it the chief issue of the session, the senate may spend the summer in Washington, instead of disposing of its work in a few days, as usual. Many senators who have participated in many fights of this kind in the past believe it would be more difficult to get the senate to agree to a limited debate rule than it would be to get a declaration of war against Germany or to pass the armed neutrality bill that died Sunday, because the rules say a senator can not be taken from the floor when he wishes to keep on talking.

There has been no caucus among opponents of the cloture, but Republicans predicted that the minority party almost to a man would oppose such a rule and openly declared that there would be Democrats to side with them.

The biggest present asset of those who wish a change in the rules is the president and the public opinion his statement denouncing the present rules is expected to arouse. The president is expected to continue his insistence for a change, but even optimistic champions of cloture think it will be difficult to keep public interest centered on such a question.

The Republicans, aside from any personal views they may have about the president's statement and its intent to force a change in the procedure of the legislative branch, will oppose the proposed rule just as minorities always oppose it, because unlimited debate is one of their most potent weapons. The progressive Republicans, who participated in the killing of the armed neutrality bill, are understood to be exceedingly bitter over the president's statement denouncing them. It is pointed out, too, that they have often profited by filibusters and some of them were prepared to employ one this year against the river and harbors appropriation bill, if it ever had reached the senate floor.

Democrats who may oppose the change in rules note that the time may come when they will find themselves again in the minority. It was a filibuster which Senator Gorman, a Democrat, used many years ago to defeat a force bill on negro enfranchisement and that fact has never been forgotten.

Some senators do not regard a fight over the rules at this time as particularly opportune, because they say there is no one in the senate who actually can lead a majority, no matter what title may be given him or whether the president puts the power of his backing behind him.

## PLOT TO DESTROY MUNITION PLANTS

(By American Press)

Hoboken, N. J., March 6.—With the arrest here of Fritz Kolb, a German, the authorities expressed the belief that they had frustrated a well developed plot to aid Germany by blowing up ammunition plants in this country engaged in turning out contracts for the entente allies. The police said they found in Kolb's room two bombs which, according to rumors that had reached them, were to be sent to President Wilson.

After a preliminary investigation, however, they announced themselves as convinced that the plans of the alleged plotters had to do entirely with destroying war supplies and that no attack on the president's life was contemplated. The police also said they had come into possession of information which might help them in solving the Black Tom (N. J.) explosion and the destruction of the Kingsland (N. J.) plant of the Canadian Car and Foundry company, in which large munition supplies for the entente allies were blown up.

Four other men were questioned by the authorities. Chief of Police Hayes of this city said they were friends of Kolb, but that he was convinced they knew nothing of the alleged plot. We are following leads which may result in additional arrests at any time," Chief Hayes declared.

## NEW MEASURE FOR RELIEF OF CITIES

(By American Press)

Columbus, March 6.—The Ohio senate passed the Oberlin bill making Lincoln's birthday a legal holiday in Ohio.

Eleven other measures were passed by the senate. One, by Representative Smith, Cuyahoga, requires street-car companies to provide seats for motormen and conductors.

When told by Senator Tremper that Senator Davis, Youngstown, was seriously ill, the upper house unanimously passed Davis' bill, which permits owners of country estates to register the names of their properties with the secretary of state, so that they can not be used by others.

Opportunity will be given Ohio voters in November, 1918, to amend the state constitution so as to permit classification of property for taxation. If a joint resolution offered by Senator Timby, Ashtabula, is adopted by both houses of the legislature.

Ohio militiamen who have been doing border duty will be awarded medals by the state. This was made certain when the senate finance committee recommended passage of Senator Holden's proposal to appropriate \$5,000 to buy bronze medals. No opposition to the bill is expected in either house.

Without a dissenting vote, the senate adopted the resolution offered by Senator Miller of Licking county condemning the "pitiful minority" which defeated President Wilson's armed ship bill in the United States senate. "The state senate pledges the president its heartiest co-operation and declares it stands behind him," said the resolution. The house also adopted the resolution.

Despite determined opposition on the part of Senators Jones, Columbus, and O'Brien, Cincinnati, the Mooney bill, providing state aid to municipalities for pensioning of police and firemen, was passed by the senate, 24 to 5. The measure calls for a scale of one-half to one-third of a fireman's or policeman's salary, after he is retired, but in no case is the pension to exceed \$1,800 a year. The state is to use fees collected from foreign insurance companies to pay thirteen-sixteenths of the amounts thus expended.

To Probe Campaign Expenses.

Investigation of campaign expenditures in connection with the last primary and general elections in Ohio by a legislative committee of three senators and three representatives is proposed in a resolution introduced by Representative J. A. Reynolds.

The resolution says that accounts filed with the secretary of state show that more money was spent than could be done legitimately under the corrupt practices act. The committee is to report at the next session of the legislature, so that the laws regulating expenses may be "strengthened." The probe will not be held until after adjournment of the present session, it is proposed.

The house defeated, 45 to 56, a motion by Minority Leader Reighard to relieve the finance committee of its bill, appropriating \$20,000 for an accounting of the state workmen's compensation fund. Opponents of the motion said patrons of the fund are not asking an investigation, but that only liability insurance companies are demanding it.

Relief for bankrupt municipalities and school districts of Ohio, one of the subjects that has made no end of trouble for officials of debt-burdened political subdivisions, the governor and the general assembly during the present session, looms near. Leaders for and against the retention of the Smith 1 per cent law have come together on a measure which will be introduced by Senator Virgil J. Terrell of Cuyahoga county. It retains the 1 per cent clause, and has the endorsement of ex-Governor Harmon. The bill is now in the hands of Governor Cox.

The terms of the bill emphasize the finding of relief by community governments by employment of the constitutional provision that all property be assessed for taxation at its true monetary value.

The municipalities and school districts, the preamble declares, in turning over a new leaf must have help in order that they may clean the financial slate before starting upon their new work. The bonds which may be issued to cover all deficits now existing are not to run more than twenty years.

## SAN FRANCISCO HALTED ITS DAILY WORK WHEN FUNSTON RECEIVED LAST HONORS

THE BODY OF MAJOR GENERAL FREDERICK FUNSTON, WHO DIED IN SAN ANTONIO, TEXAS, WAS INTERRED IN THE NATIONAL CEMETERY AT THE PRESIDIO IN SAN FRANCISCO.

The services were read in a driving rain, but the sun flashed out for a moment as the Presidio batteries boomed a last salute of thirteen guns.

Flags and banners of many semi-military organizations, crepe bound, were massed in the background, circled by bluejackets and artillerymen. Three volleys of rifle fire over the grave preceded taps.

The roll of artillery was a signal for the cessation of all possible activities in the city for two minutes. In the pictures may be seen the casket lying in state in the San Francisco city hall and a body of soldiers escorting the body up Market street.

## RULING ON ARMAMENT TO BE GIVEN

(By American Press)

Washington, March 6.—President Wilson has postponed further action in the German situation, pending decision by his legal advisers, whether he has power to arm American merchantmen in spite of the failure of congress to pass a resolution conferring such authority.

The question was referred to Attorney General Gregory and Secretary Lansing and probably will be decided in time for consideration at the next cabinet meeting.

A determination to arm the merchantmen if a legal way to do so can be found was generally apparent.

The president has placed squarely before the senate the report for changing its rules during the special session so that filibustering by a small group of senators can not prevent action by congress. In the meantime he is preparing to take such steps as he can to meet the crisis and defend America. In his inaugural address he declared "we stand firm in armed neutrality," and added: "We may even be drawn on, by circumstances, not by our own purpose or desire, to a more active assertion of our rights as we see them, a more immediate association with the great struggle itself."

While the arming of merchantmen is the step most considered, it is pointed out that the president has the right to convoy American vessels. This course has been opposed by the navy department, however, principally for strategic reasons.

Another step suggested is that the shipping board take over American merchantmen, arm them as naval auxiliaries and send them abroad.

The president has been inclined to believe that certain old statutes still in force might prevent him from furnishing guns to merchantmen, but some of the advisers hold that a broader and truer interpretation of these laws will show that they have no application to the present situation.
